Knowing the LEARNER through ASSESSMENT

- How can we understand what a student knows, thinks, and is able to do?
- How can we teach students to become effective assessors of their own learning so they can make informed decisions about next steps?

- How will we give students voice and choice in their learning and build on a desire to make sense of their world?
- How will we, together with our students, share and use pedagogical documentation to develop metacognition for the purpose of assessment 'as' and 'for' learning?

Responding through EFFECTIVE INSTRUCTION & LEARNING ENVIRONMENT

- In partnership with students how can we design learning experiences based on the current strengths and needs of these students at this time?
- How will observations, conversations and products (i.e. triangulation of data) drive the next level of learning in the curriculum?

- How can we best plan, sequence and connect key concepts across the year through the gradual release of responsibility model?
- How can we integrate the big ideas across other curriculum areas for/as an interdisciplinary approach?

- Collaborate with and support schools in the development of their School Improvement Plan (SIP) and incorporation of relevant data
- Provide differentiated support to schools (e.g., instructional teacher support, release time and resources, etc.)
- Assist in connecting the BIPSA, School Effectiveness Framework (SEF), to SIPSA
- Promote formal and informal leadership to support professional learning

Administrators will:

- Collect, analyze and respond to evidence of student learning and well-being, and educator practices
- Support the development of instructional leadership by modeling, coaching, and taking an active role in school-based professional learning (i.e. Collaborative Inquiry Learning (CILs) and Professional Learning Communities (PLCs), etc., as well as Principal Learning Teams (PLTs) and Network Learning Communities (NLCs)) using evidence-based instructional strategies
- Develop and implement learning cycles based on school and student data/evidence
- Bring current evidence to each network learning session to demonstrate progress made within the inquiry process
- Participate in and provide opportunities for co-planning, co-teaching and co-debriefing/reflecting amongst staff

- Participate in PLCs using student data & collaborative inquiry to monitor progress, deepen professional knowledge; understand & use digital technologies, to gather and analyze timely assessment information about student learning to guide instructional approach

- Triangulate leading student achievement data to establish responsive instructional goals, & plan & monitor professional learning needs
- Engage in the professional learning cycle through co-planning, co-teaching and co-debriefing/reflecting within school improvement collaborative learning
- **Focus on the consolidation of key concepts to support students in becoming independent & flexible thinkers.**

Students will:

-

See SIPSA support doc.

Support Staff will:

- Collaborate to assist in the implementation of effective strategies that will support learning for all students
- Collaborate to support job-embedded professional learning of evidence-based instructional strategies
- Respond to system learning needs in a strategic and timely fashion

MONITORING LEARNING

Professional learning cycles will include reflection and assessment of **educator learning** and **student learning** through the BIPSA monitoring questions.

MONITORING OUR STUDENTS' LEARNING

Ongoing reflections that will support efforts to know our learners and monitor student growth:

- Where did our students begin? How did we document and measure student learning?
- How have our changed instructional and/or assessment practices show impact through the number of students achieving at or beyond the provincial standard?
- How do we know that all students have shown growth?

Catholic, Global-Minded Graduates
 Collaborate & Communicate
 Think Critically & Problem Solve
 Create & Innovate; Develop Character
 Demonstrate Resiliency & Persevere

See SIPSA support doc.

NEXT STEPS:

- What will we do next as a result of our learning and reflections?
- How does our new learning inform our MYSP priorities?
- How will we mobilize our successful evidence-based strategies?
- What additional student and educator learning needs remain?

MONITORING OUR PROFESSIONAL LEARNING

Reflecting on the Instructional Core

- How has our selection and implementation of the instruction/assessment practice been aligned with the student learning need?
- How do our learning tasks predict performance?
- How has the role of the student evolved in the instruction/assessment process?
- How has our enhancement of teacher content knowledge affected the development of the learning task?
